Complementary Divisions:

8.2.11. Traditional

The bow- made from one piece of wood (packing of sinew is allowed) no arrow rest and any kind of window. Horse bow is a symmetric recurve composite bow. The handle also symmetrical and it is at least 15 mm width. It cannot have any kind of window. When the bow is strung the string also runs in the symmetric center of the bow and has a length not more than 1.6 m. The bows can be shot with glove, finger tab or bare fingers. While shooting, the archer must touch the arrow with one finger against the nock (no "string walking"). Any type of draw check on the bow or string is not allowed. Only wooden arrows are allowed.

8.2.6. **Hunter Recurve**(TR) There can be used any type of traditional recurve bow with wooden handle. No release aid, no sighting device, no stabilizers, no added weight. It must be shot with glove, finger tab or bare fingers. While shooting, the archer must touch the arrow with the index finger against the nock (no "string walking"). There will not be any type of draw check on the bow or string. No marks are allowed in the sight window, on string, on the bow that could be used to judge distance, or as an aiming reference. Arrow rest like T300, Neet, Hoyt Hunter, Bear ore similar can be used. Any kinds of arrows are allowed.

8.2.7. Longbow (LB)

must be shot from the blue stake (max. 30yards). There can be used any type of longbow defined as: a bow when strung the string touches only the nocks of the bow, no release aid, no sighting device, no stabilizers, and no added weight. Must be shot with glove, finger tab or bare fingers. While shooting, the archer must touch the arrow with the index finger against the nock (no "string walking"). There will not be any type of draw check on the bow or string. Marks in the sight window, on the string, or on the bow that can be used as range finding or as an aiming reference is not allowed. Only wooden arrows are allowed.

8.2.9. Bare bow (BB)

Equipment as in the WA rules defined.
